HOTEL KRONE

# Natural *Luxury*

Following winter being put on hold last year, we consider this winter to be a real luxury. And not just because we are in the fortunate position in Lech to be located at 1,450m above sea level where snow is very much a natural asset. But also and in particular because we are able to share this precious commodity with you again this winter.

You are sharing your precious time with us to experience this magic, this glitter and sparkle – on your holiday. We strive to make your stay as pleasant, comfortable and safe as possible. With more Krone amenities, cosiness and security – for your comfort and well-being.

Because time is a luxury, just like this winter when we look forward to welcoming you safely and securely!

## More comfort

Best of the Alps. Our membership of this select group of 13 renowned Alpine destinations speaks volumes. Being the best does not always mean being the biggest. Although there is the happy coincidence the Ski Arlberg is Austria's largest continuous ski resort with its 305 km of pistes and 88 mountain railways. Topping these figures is not our goal. Instead, we aim to come top in terms of offering the best quality pistes and slopes. And this is something we are pursuing consistently in winter 2021/2022 with a big investment in redeveloping the Madlochbahn and Zugerbergbahn cable cars.

## More safety

It is taken as read that we implement all legal measures, so these do not need to be detailed further here. We also apply additional measures to ensure the highest possible levels of safety for all guests and employees.

- Approx. 93% vaccination rate among employees and the population of Lech
- Weekly PCR testing of all employees
- Increased distancing of chairs in restaurants and the spa area

## Leisure time

There is no set time for leisure at the Krone. All time is leisure time – starting in the morning with breakfast from the opulent buffet – whether an early bird or a late riser. It's no bad thing when the last breakfast gourmets overlap with the first lunchers or the quick snackers cross paths with guests with a sweet tooth indulging in coffee and cake.

After an aperitif on the sun terrace, at the legendary bar or in the historic wine cellar, it's time for some gourmet indulgence in one of the four restaurants. Each offers its own unique style and ambience. One thing they have in common is speciality award-winning cuisine, as recognised year after year by renowned gourmet guides. Indulgence full of regionality, creativity and flavour.

## Summer magic

In summer, nature blesses us with a wealth of colour, flowers, fruits and atmospheres. Summer may reach us here at 1,450 m altitude a little later than it does lower down in the valley, but it all the more intense and full of contrasts as a result. Summer doesn't last as long as in the valley but instead is concentrated from July to September. During this shortened summer season, the meadows through which the footpaths weave are as green as the grass on the

9-hole golf course in Lech. The mountain pastures are as colourful as the footpaths are varied. The fruits are as ripe and ready as the beginner golfers, ready to tackle a round after completing their golf proficiency week. And the atmosphere is beautiful, pleasant and tuneful – at the Lech Classic Festival, on the jazz stage, at the Sunday concerts and at the many festivals. In short: summer is a festival and the Lech Card is a welcome companion!
